

Elevate Your MA Plan's Transportation Offering & Member Experience

Differentiate your Medicare Advantage (MA) plan with a member-focused, technology-powered non-emergency medical transportation (NEMT) offering from SafeRide Health – whether this is the first time you're offering a transportation benefit, or you're looking to upgrade your NEMT offering. The average beneficiary has access to nearly **43** Medicare Advantage plans – your plan could be overlooked if it's not offering best-in-class benefits and member experience.

How SafeRide Helps

Ride Flexibility

Meet all of your member transportation needs while delivering a leading member experience with on-demand and pre-scheduled multi-modal transportation available at their fingertips using member self-service tools.

Our algorithms ensure members get the right ride every time whether to an appointment or the pharmacy.

95+%

On-Time Rate

Optimized Experience

Create an NEMT benefit that fits your plan and member needs today and beyond. SafeRide's real-time ride tracking and data transparency lets plans know exactly where and how rides are going.

This reduces grievance rates, fraud and abuse risks, and improves member experience and long-term member retention. This member-first experience helps the best plans stand out and improve Star ratings.

Customized Solutions

With SafeRide's technology first approach, your plan gets reliable end-to-end NEMT solutions fit to your plan's priorities.

Implementation is easy – we can integrate into plans' platforms via API or tailor new, custom portals for a turn-key solution. All backed by our onshore and highly trained call center and/or your in-house plan experts.
